**FUNÄSDALS
FJÄLLEN**

Snow and avalanche A knowledge and a must for everybody who skis and visit mountain areas. There are rules to follow, learn them with us.

Bivac To build an bivac is time-consuming, trying and could even be dangerous, but with the right technique it will be the adventure of a lifetime.

Iceclimbing A delicious challenge on a frozen waterfall under safe conditions is much easier then you may think! With razor sharp ice axes and crampons we take us up the waterfall, safe and sound!

Ski mountain-seering This activity could even have the name natures best! Far away from skilifts, masses and alarming noise, just snow, snow and sights and places you just thought existed in sagas.

X-country Day trips or longer, in one of Swedens finest mountain areas. We have the world's longest cross-country tracksystem (300 km) and a lot of untrailed choices.

Hunting and fishing Do you need a guide to help you get the big fish or just a guide to point it out? We arrange guided tours, flyfishing schools, we have some of Scandinavias best waters... If you're hunting we arrange small game and moose hunting with the best guides and service around.

Fjällbäcken The Lodge. Our lodge, and dream, lies on the shoulder of the mountain at 800 meters above sealevel.

The lodge consists of a big timber main building with 22 exclusive beds. Outside we have 2 hot tubs, a sauna, a big lappish treehouse where you and your 59 closest friends or colleagues can eat your dinner.

Our big balcony and dining-room has the most

fantastic view over the mountains and our beautiful village Bruksvallarna, By the way the sauna is from 1777 and the main building is from 1865 – the feeling is in the walls. Our kitchen is well known for its good local food. Choose among reindeer, elk, trout and grouse.

If you are looking for a quiet palace with style and staff who knows the mountains like their own pockets, Fjällbäcken could be the answer.

Rockclimbing Focus and force!
Challenge your wife, friend or business partner. The treeclimbing youth is in you.

Whitewater canoeing

The skiers summer substitute. This is fun and wet – we promise. Whitewater canoeing is one of the most dangerous sports there is. Follow us and be safe.

Canoe

A beautiful, peaceful stretch on Ljusnan's crystal clear water. If you're thirsty, take a sipp from the river. The whole village Bruksvallarna take their water from Ljusnan – no chlorine added!! We guide in elk, trout and beavercountry, – if we're lucky we can see the elk family take their morning swim. We serve lunch on one of the many sand banks along the safari. The lunch is based on local specialities.

Mountainbike Day trips or longer in one of Swedens finest mountainbiking areas, thanks to the long and living farmculture. We have tracks on the mountains and in the more wind- and weatherprotected valleys.

Helibiking. Skip the toughest parts and fly directly to the best areas.

Canyoning Common in the alps, now in Funäsdaalen. Wetsuite, lifejacket, helmet, ropes and a big smile and the adrenalin rush is on!! The "grande finale" with a 20 meter rappel down a waterfall is the subject of the evening conversation!!

Glacier On the most southern glacier in Sweden – Helags. A whole new world is waiting to be explored... With crampons on our feet and an ice axe in the hand we're walking on 9000 year old ice in the middle of the summer!! Our walking is now and then interrupted by up to 25 meter deep crevasses/cracks and if you dare you can be rappelled down and then climb up: The glacier lays in a gully of Helags, Swedens highest mountain south of the polar circle.

Trekking Gentle mountains, spectacular views. Day and week trips.

Incentive Ask us for our incentive and group map. It could be the best step you've done.

Strapatser is a local family company, grounded 1998 by me, Jon Wagenius. Me and my wife Mia and our staff has since then put our guests in the front row.

People have always considered me to be an adventurous person, but I have only done what I think is fun. Now it could be your turn!!!

The past years have been incredible with nominations and distinctions and satisfied guests succeeding each other.

Strapatser is the local and natural choice as guides and arrangers in Funäsdalsfjällen.

Jon Wagenius
